ABSTRACT

Data on the Illinois public community colleges, covering fiscal year (FY) 1985 and part of FY 1986, are presented in this report on the system's students, faculty and staff, instructional programs, operating finances, and capital construction. After introductory material providing a summary profile of the colleges, a map of the college districts, and a listing of institutions, section I presents tables showing student characteristics, including headcount data for fall 1985 by sex and type of attendance, instructional program area, age, ethnic origin, academic classification, type of residency, and enrollment status; proportions of district populations served; headcount data for fall 1976 through fall 1985; and a summary of grants to disadvantaged students. Section II offers faculty and staff data, including information on instructional faculty, administrative staff, non-teaching professional staff, and classified staff for fall 1985; average base salaries; average class size; and percentage of classes by size categories. Section III presents program data, including an inventory of curricula offered in the Illinois colleges; degrees and certificates awarded; and occupational programs. Section IV provides financial data on apportionments, grants to colleges, instructional unit costs, tax levies, operating revenues and expenditures, and energy usage and costs. Finally, section V contains data on facilities and college construction. (HB)

INTRODUCTION

This is the sixth publication of a comprehensive data book by the Illinois Community College Board (ICCB). This document contains data and characteristics of the Illinois public community college system and is designed to serve as a basic reference. No analysis of the data is intended in this document. The data are obtained from various surveys and studies conducted by ICCB staff and from the colleges' annual MIS submissions.

This document contains annual data for fiscal year 1985 and fall term data for 1985 (fiscal year 1986). Enrollment data and faculty and staff data are collected during the fall term each year; thus, these data are Fall Term 1985 (fiscal year 1986). Budgeted operating finance and facilities data are for the current year, fiscal year 1986. Audited financial data, unit cost data, annual enrollments, and graduate data are for the past fiscal year, fiscal year 1985.

This publication provides information about 1) students, 2) faculty and staff, 3) instructional programs, 4) operating finance, and 5) capital construction. Each of these areas constitutes a section of this document. Several tables summarize data from more detailed reports that have been published separately. The objective of this document is to provide useful summaries of data for community college districts in one reference document. If you have requests for other data or suggestions for additions or deletions, please contact the ICCB Office.

Special acknowledgment is extended to the personnel of the colleges for their cooperation in completing surveys and providing the ICCB with computer-readable data on a timely basis.

Table 1 on the next page is a summary profile of selected statistics for the 39 Illinois public community college districts. The map on page viii shows the geographic location of each college district.

Section I

STUDENT CHARACTERISTICS

This section includes data on headcount and full-time equivalent (FTE) student enrollments in Illinois public community colleges.

The public community colleges of Illinois enroll more than 50 percent of all students enrolled in higher education in the State of Illinois. The diverse population of the communities that the colleges serve is reflected in the student characteristics shown in this section.

The tables show student enrollments based on opening counts (10th-day enrollments) for a given term. Opening enrollment counts are a snap-shot count at the end of the regular registration for the fall term and do not include many students who enroll for courses which start later in a term.

Table I-1 shows that the annual unduplicated headcount enrollment in Illinois public community colleges for fiscal year 1985 was 712,998.

Table I-2 lists the fall 1985 student headcount enrollment by sex and type of attendance. Fifty-eight percent of the 339,782 students enrolled in Illinois public community colleges were women. Part-time students accounted for approximately seventy-two percent of the enrollments.

Table I-3 itemizes the fall 1985 student headcount enrollment by instructional program area. Thirty-six percent of the students were enrolled in baccalaureate transfer programs, thirty-two percent in occupational programs, one percent in remedial/developmental programs, twelve percent in general studies programs, seven percent in vocational skills programs, and eleven percent in adult basic education/adult secondary education programs.

The data in Table I-4 show fall 1985 headcount enrollment by age categories and provide the median age of students for each public community college. The median age for fall 1985 students was 26.6 years. This is down .7 years from the fall 1984 median age of 27.3. The mean age was 31 years.

Tables I-5 through I-8 summarize fall 1985 student headcount enrollment by ethnic origin, academic classification, type of residency, and enrollment status. Table I-6 shows that approximately sixteen percent of fall 1985 students were classified as sophomores. Fifty-five percent of the fall 1985 enrollments were classified as freshmen.

Table I-9 lists by headcount and FTE the proportions of district populations served by Illinois public community colleges in instructional credit curricula. Table I-10 summarizes fall 1985 headcount enrollment in community education classes.

Table I-11 details the trends in community college headcount enrollments from fall 1976 through fall 1985. Table I-12 lists the trends of FTE enrollments for the same ten-year period.

Table I-13 provides a summary of students served through ICCB disadvantaged student grants for fiscal year 1985. A total of 293,667 received support services, and approximately 19,182 attended courses supported by disadvantaged student grant Restricted Purposes Funds.

Section II

FACULTY AND STAFF DATA

The tables in this section present data regarding faculty and staff employed by the public community colleges of Illinois. The salary and staff data were collected in fall 1985 and reflect averages for fiscal year 1986.

Table II-1 lists the number of instructional teaching faculty by sex and employment status employed during fall 1985. Of the 15,083 teaching faculty employed in fall 1985, 4,702 were full-time faculty.

Table II-2 shows the total number of administrative staff by sex and employment status. Administrative staff includes both academic and general administrative personnel, such as the President, Dean of Instruction, Dean of Student Services, Director of Financial Aid, Director of Counseling, and other similar administrative positions.

Table II-3 lists the number of full-time and part-time non-teaching professional staff by sex and employment status employed in each community college. Non-teaching professional staff includes counselors, librarians, and other instructional support staff. Table II-4 provides the same information for classified or civil service type staff.

The average contractual base salaries paid to full-time teaching faculty, full-time administrative staff, and full-time non-teaching professionals are shown in Table II-5.

Table II-6 identifies the average class size for on-campus lecture/discussion classes and laboratory classes. Table II-7 shows a percent distribution of on-campus classes by size for each community college.

Section III

PROGRAM DATA

This section includes information on instructional programs offered by the Illinois public community colleges.

Table III-1 provides information on inter-district cooperative agreements that permit students from one college district to enroll in instructional programs offered by another college district if the home district does not offer the program.

Table III-2 provides an inventory of curricula approved at each of the 50 public community colleges. The colleges are listed alphabetically within each region of the state. The various occupational curricula provided are listed by Classification of Instructional Programs (CIP) code. Each curriculum is designated as follows:

1 - Curriculum leading to an associate degree (60 semester credit hours or more)

2 - Curriculum leading to a certificate of 30 semester credit hours or more

3 - Curriculum leading to a certificate of less than 30 semester credit hours

S - Statewide approved curriculum

Table III-3 lists the number of associate degrees awarded in transfer and general studies curricula and the number of general studies certificates awarded by each community college in fiscal year 1985.

Table III-4 shows the number of associate degrees and certificates awarded in occupational curricula and the number of vocational skills certificates awarded by each community college in fiscal year 1985.

Section IV

FINANCIAL DATA

Presented in this section are financial data on audited and budgeted revenues and expenditures, chargeback computations, local tax rates, tuition and fees, and state aid grants.

Tables IV-1 through IV-3 give historical data for annual enrollments, ICCB grants to colleges, and net instructional unit costs.

Table IV-4 shows the fiscal year 1985 apportionment credit hours for the seven instructional categories and the total apportionment credit hours for each community college district. Apportionment credit hours are those hours which qualify for state credit hour reimbursement funding.

Tables IV-5 and IV-6 list the state grants received by each community college district during fiscal year 1985 and fiscal year 1986 for each category of grants.

Table IV-7 shows the per capita costs per credit hour, the chargeback rate, and tuition and fee rates for each community college district. Colleges are limited by law to a tuition rate that does not exceed one-third of their per capita costs.

Table IV-8 lists the total 1984 operating tax extensions, corporate personal property replacement tax paid to each community college district in fiscal year 1984, and the net operating corporate revenues which are total CPPRT less an allocation to the colleges' bond and interest funds.

Table IV-9 itemizes each college's 1984 tax levy rates for the Education Fund; Operations, Building and Maintenance Fund; Bond and Interest Fund; Liability, Protection, and Settlement Fund; Audit Fund; and Other Funds.

Table IV-10 details the fiscal year 1985 net instructional unit cost for the seven instructional categories for each community college district.

Tables IV-11 through IV-13 show revenues by source and expenditures by object and function reported in the colleges' fiscal year 1985 external audits. Tables IV-14 through IV-16 show revenues and expenditures budgeted by each community college for fiscal year 1986.

Tables IV-17 and IV-18 provide data on energy usage and costs for each college for fiscal years 1983 through 1986.

Section V

FACILITIES DATA

This section on facilities presents two types of data; the first part gives data on physical facilities available on community college campuses and the second briefly describes how the facilities were financed.

Table V-1 summarizes the total acreage on each college campus by nine categories of land use.

Table V-2 summarizes the total net assignable square feet (NASF) and gross square feet (GSF) available on each community college campus.

Table V-3 lists the square footage of all on-campus facilities under construction or approved for construction as of fall 1985.

Table V-4 gives the percentage of classroom and laboratory utilization by time of day for fall 1985 (fiscal year 1986).

Tables V-5 through V-7 show the NASF by function of space on each campus for completed facilities. The NASF is shown for state-funded facilities, locally funded facilities, and temporary facilities.

Table V-8 shows the NASF by function of space in state-funded facilities under construction. Table V-9 shows this breakdown for locally funded permanent facilities approved or under construction.

Table V-10 gives a computed figure for space (room use category) per student (10th day on-campus FTE).

Table V-11 shows the amount of space per college justified for state-supported construction based on the enrollment criteria utilized by both the IBHE and the ICCB. The calculation is based on full-time equivalent students (FTE). The formula used is explained in ICCB Rule 1501.603c4C.

Table V-12 depicts the sources of funding for each college's permanent facilities. One district (Richland) has no permanent facilities and, therefore, has received no state appropriation. John Wood has only one small extension center facility partially funded by the state; however, fiscal year 1986 appropriations have been approved for both Richland and John Wood. State Community College's facilities were totally funded by state appropriation.

Table V-13 provides a per campus breakdown of the budgeted sources of funding for all known capital projects completed as of February 1986. The total cost of each individual project as well as district totals are shown. Tables V-14 through V-16 list the same information for projects currently under construction or approved as of February 1986. Table V-14 lists general projects; Table V-15 identifies projects approved for protection, health, and safety funding; and Table V-16 lists all projects requested with remodeling and rehabilitation funds from the "Build Illinois" program.

NASF = Net Assignable Square Feet
GSF = Gross Square Feet

*Building efficiency equals net assignable square feet divided by gross square feet.

	Percent of Available Funds	29.69%	20.93%	4.22%	45.16%		

a) Includes bonds for protection, health, safety projects.
b) Includes sources such as interest earned, transfers from operating funds, foundation grants, in-kind credits, and HB 1587 levy.
c) Does not include grants for technical assistance (T.A.) for planning energy conservation measures.
d) Differs from appropriation because of construction defects or bids under budget. Includes repair and renovation grants (Build Illinois).
e) May not include site and construction funds expended for movable equipment.
f) Buildings constructed in cooperation with the Chicago Public Building Commission.

SOURCE OF DATA: ICCB Records.
